2. On the initial start of race, Flagman starts the race at green light under flagman's discretion.
3. On restarts, starts will be between turns 3 and 4 with leader starting at Race Directors discretion
4. The green light at the end of the front straightaway is under the control of the Flagman and will be used on all initial starts.
5. The field must maintain an orderly, controlled pace around to turn 4, with the front row running side by side. Provided that the lineup is good, the race will be started at some point around turn 4. The race will not start until the green light is switched on by the flagman.
6. Anticipating the start or firing before the start will be considered a penalty and the offending driver or drivers will be put back one row, if a second infraction occurs.

**United Championship Racing Alliance**

### **DOUBLE FILE RE-STARTS**

Once the leader chooses, leader must lead green flag lap before leader can re-choose. Initial starts and re-starts apply.
2. On double file re-starts the leader starts the race between turns 3 and 4. The cars behind the leader must not change lanes until they pass the flag stand. Cars must not "lay back" to get a roll or run on the cars in front of them.
3. Any car that is judged to be jumping the start will be penalized one spot. If the same car is judged to be jumping a second time in the same race, it will be penalized to the rear of the field.

4. Any driver who comes to a stop during the race, and in the opinion of the Officials, has done so deliberately to cause a re-start, will be put to the rear before the race is re-started.

## **FLAGS**

**GREEN FLAG**: Start the race.

**YELLOW FLAG**: Everyone slow down to a safe speed and follow the car you were behind the last green lap. You will be lined back up on the track where you were running, not the position that you are running.
